My name is Arnold Mena i am 85  
yrs old. My apologies for this prolonged letter

I am ashamed for not recogn-  
-izing on how they have deteriorated my civil  
-rights. It has been discovered through my resea-  
-arch of the state statutes of New Mexico that they  
are in Violation of state statute 29.11.17.

Being incarcerated illegally  
for nine months with no bond, Denial of 10  
Court Conferences and no dependable Attorney  
to expect from him to exercise his Code of Ethics,  
take into account the already abuse of Justice.  
for being in this jail nine months.

Onto all this I question what  
are the offensive approaches necessary for.  
I have been abused physically and mentally.

Further more it is necessary  
for me to savor my freedom freely. By sponsor-  
ation of all arrests from 2004 to the present  
year of 2022.

I further ask how do I reveal  
that there are performances above the law? And  
this performances reveal that State Statute 29.11.17.  
is being used to keep me incarcerated. I desp-  
erately need legal assistance

Any references to get assistance

from the Public defenders is a futile matter  
it would just incite further incarceration

Also truthfully I am suffering  
from all this Abuse since 2021 An inmate  
named Marcos Saenz spat on my face this  
person is being very harassive against me  
and others Others can verify this situation

My Apologies but I have to  
much to expose against M.D.E. I remain  
under fear, But Determinately I remain

Respectfully Arnold Meza
